# SPECTRUM SAFETY WIPES

## *Green & Clean*

**Spectrum Safety Wipes** are bio-based and bio-preferred and provide for superior cleaning performance. The dual-action technology utilized allows for cleaning hands (skin) and any hard surfaces. **Spectrum Safety Wipes** is truly a "Green" product which does not contain any petroleum distillates and d-Limonene, which is classified as an irritant and sensitizer.

**Spectrum Safety Wipes** features a textured side to effectively clean tools and hard surfaces and a soft side to be gentler on the skin, providing desired moisture and softness – **Spectrum Safety Wipes** will not dry out your hands. Likewise these wipes are safe for cleaning hands that contact insulated gloves.

With **Spectrum Catalyst's** private label program you can now have wipes with your own custom label. This is available to anyone that commits to ordering 5,000 or more wipes at a time. The pricing for the product will remain the same as if using our generic labels.
